

Sandro Weslei

Full Stack Developer | AI & Web3 Enthusiast | React · Node · Blockchain

Brazil • sandrodevoficial@gmail.com • linkedin.com/in/sandroweslei

PROFESSIONAL SUMMARY

Full Stack Developer with experience in government healthcare systems, currently contributing to the modernization of Brazil's public health infrastructure. Strong background in building mission-critical systems used by military institutions (Navy and Air Force), ensuring high reliability and scalability. Experienced in modern web technologies and expanding expertise in Web3, blockchain systems, and decentralized applications (dApps), including smart contracts and crypto-based architectures. Passionate about AI, SaaS, and building scalable digital ecosystems.

CORE SKILLS

Frontend	React, Vue, Next.js, React Native
Backend	Node.js, PHP, TypeScript
Web3	Solidity, Ethereum, Smart Contracts, Web3.js
Tools	Git, REST APIs, AWS, Postman

PROFESSIONAL EXPERIENCE

Senior Systems Analyst — FESF-SUS (Government) (2023 – Present)

- 1 Worked on modernization of Brazil's healthcare infrastructure
- 2 Developed systems used by Navy and Air Force medical services
- 3 Built scalable applications with Vue.js, PHP, Oracle
- 4 Ensured security and performance in mission-critical systems

Full Stack Developer — bayz® (2021 – 2023)

- 1 Developed web/mobile apps with strong UX focus
- 2 Automated processes using bots
- 3 Built crypto payment systems and blockchain integrations
- 4 Worked in agile environments

Systems Analyst & Developer — Flame.out (2020 – 2021)

- 1 Built enterprise applications with React, Vue, Node.js, AWS
- 2 Designed scalable architectures
- 3 Mentored developers

Systems Analyst & Developer (Web3 Focus) — BRODWARS (2018 – 2019)

- 1 Developed blockchain-based systems using Ethereum and Solidity
- 2 Created smart contracts and crypto transaction systems
- 3 Worked on decentralized applications (dApps)
- 4 Improved security and performance of blockchain solutions

WEB3 & BLOCKCHAIN EXPERIENCE

- 1 Development of smart contracts and decentralized systems

- 2 Experience with crypto payments and blockchain integrations
- 3 Understanding of tokenomics and decentralized architectures

EDUCATION

Systems Analysis and Development — Estácio (2023 – 2025)
